Strategy Consultant | Experience Designer | Research & Insights

thariqhamad6@gmail.com | +966 56 344 1876 | [LinkedIn](#) | [Portfolio](#) | Riyadh, KSA | Transferable Iqama

SUMMARY

Strategy and experience design professional with 8+ years of hands-on delivery across fintech, payment systems, EV mobility, sports technology, and government-facing digital products. Experienced in conducting qualitative and quantitative user research, translating findings into structured insights, and designing end-to-end user journeys, onboarding flows, and payment experiences across mobile and web platforms from research through to high-fidelity Figma prototypes. Has led strategy execution and design-led deliverables as an embedded team member across B2B enterprise clients in Europe, Australia, and the USA, presented design concepts at the government level, and facilitated stakeholder workshops with C-suite and VP-level decision-makers. Brings the rare combination of strategic thinking, design execution, and research rigor across the exact domains this role serves. Currently studying Arabic. Based in Riyadh, KSA, with a Transferable Iqama. Available immediately for on-site engagement in Riyadh.

DOMAIN EXPERTISE

- Fintech & BNPL
- Payment Systems
- EV Mobility
- Sports Technology
- Enterprise AI & SaaS
- Government & Public Sector

EXPERIENCE

Product Manager (FTC)

Fortude | Colombo, Sri Lanka (Hybrid) | **Domain: Enterprise AI & SaaS**

October 2024 - January 2026

Drove strategy execution and structured deliverable development for two enterprise AI & SaaS products targeting clients across Europe, Australia, and the USA.

- Developed **structured strategic content**, **market positioning frameworks**, and **go-to-market execution plans** for two enterprise AI & SaaS products, translating strategic intent into clear, actionable deliverables consumed by sales, marketing, and product teams across Europe, Australia, and the USA.
- Conducted **requirements elicitation sessions** and **stakeholder interviews** with enterprise decision-makers, **deal-cycle feedback**, and user research into structured insight inputs that informed roadmap prioritization and product positioning.
- Produced **board-level presentations**, **competitor analysis outputs**, and **product strategy frameworks**, translating complex product strategy into structured visual narratives presented at CSO and board level. Built a centralized knowledge repository enabling consistent content delivery across regional teams.
- Generated a **SAR 7M+ sales pipeline** with **SAR 700K in immediate conversions** from a SAR 3.75K budget (**1,800% ROAS**) through a structured stakeholder engagement and content strategy campaign. Managed a cross-functional team of ~30 across development, design, and marketing.

Product Lead

FieldR | Colombo, Sri Lanka (Remote) | **Domain: Sports Technology | Payment Systems | Fintech**

June 2019 - May 2025

Sri Lanka's first cricket analytics SaaS platform was personally responsible for all UX research, persona development, journey design, and Figma prototyping.

- Conducted **structured qualitative research** with cricket coaches, scorers, and players, developing **detailed user personas** for each segment and mapping their distinct goals, frustrations, and decision workflows to directly inform every design iteration of the platform.
- Designed the **full platform experience in Figma**, including **data visualization interfaces**, live scoring screens, coach dashboard layouts, and player performance views. Validated decisions through **A/B testing** across user segments and iterated based on structured feedback sessions.
- Designed the complete **peer-to-peer split payment flow**, including captain wallet interface, player payment screens, **virtual hold states**, disbursement confirmation flows, error states, and retry journeys. **Integrated payment gateway UX end-to-end** across the full transaction lifecycle.
- Utilized **qualitative research** and **quantitative usage data** into structured insight reports, driving roadmap and design direction, converting **75% of active users to paid subscriptions** through research-led UX improvements.
- Secured **SAR 20K pre-seed funding**. Expanded internationally to Australia. Managed a team of 12 across design, development, and marketing using Agile delivery practices.

Product Manager

Sling Mobility | Colombo, Sri Lanka | **Domain: EV Mobility | Payment Systems | Government**

June 2021 - May 2024

Led end-to-end strategy execution and experience design for Sri Lanka's first EV mobility platform from field research through to Figma prototypes and a government-level design presentation.

- Conducted **in-depth qualitative field research** by riding with drivers before any design work began, observing real behavior, running **structured interviews**, and synthesizing findings to identify that **rider anxiety**, not battery failure, was the core pain point driving operational incidents.

- Mapped the **complete rider service journey** from onboarding through daily usage, battery management, and subscription renewal, identifying friction points at each touchpoint and **redesigning the service flow** to address root causes rather than symptoms.
- Designed **high-fidelity Figma prototypes** for the full mobile application, including **onboarding flows**, **payment flows**, subscription management screens, and real-time battery navigation UI. Iterated based on structured user testing and field observation.
- Translated the full product strategy and service concept into a **government-facing design deliverable** for the Maldivian government, combining **service design frameworks**, journey maps, and product visuals into a structured stakeholder presentation at the government level.
- Designed the **energy subscription payment flow** and **battery token purchase experience**, including virtual hold states, payout confirmation screens, and subscription status interfaces within a fintech-adjacent EV payment model.
- Facilitated **discovery workshops** and alignment sessions with operations teams, B2B partners, and government stakeholders. Presented design and strategy outcomes at the CEO and board level on a regular cadence.

Project Manager (FTC)

Motion Miracles | Colombo, Sri Lanka | **Domain: Fintech | BNPL | Payment Systems**

December 2020 - June 2021

Consulted on a BNPL fintech product launch, contributing to research, requirements design, and UX workflow specification.

- Conducted **user research** and **competitive analysis** for a **BNPL product launch**, consolidating findings into structured requirements and UX workflow specifications, including **KYC onboarding flow design**, eligibility states, and instalment management screens.
- Translated research findings into **structured product specifications** and acceptance criteria, acting as liaison between business stakeholders and the development team throughout delivery.

Program Associate (FTC)

GOOD LIFE X Accelerator | Colombo, Sri Lanka (Remote)

August 2020 - December 2020

- Supported 10 eco-focused startups with **market research**, **competitive analysis**, and **structured pitch narrative development**, converting findings into investor-ready strategy outputs and presentation frameworks.
- Facilitated **milestone review workshops** and working sessions. Implemented **OKR frameworks** to track strategic progress across the cohort.

Project Manager

Win Authority Innovative | Wyoming, USA (Remote) | **Domain: SaaS | Digital Products**

July 2018 - August 2020

- Managed **8 digital product projects** from requirements through delivery, translating client business needs into **structured digital solutions**, coordinating cross-functional development teams, and ensuring deliverables met quality, timeline, and scope expectations.

Project Manager

MillenniumIT ESP | Colombo, Sri Lanka | **Domain: Financial Services | Banking**

July 2017 - July 2018

- Facilitated **structured working sessions** with **banking sector VP-level stakeholders** presenting weekly strategy updates, risks, and delivery timelines across a multi-country development team. Managed **requirements documentation**, **UAT coordination**, and **stakeholder sign-off** throughout the full project lifecycle.
