

THARIQ HAMAD

Business Process Specialist | EV & Mobility Operations

Thariqhamad6@gmail.com | +966 56 344 1876 | <https://www.linkedin.com/in/thariqhamad> | Riyadh, KSA | Transferable Iqama

SUMMARY

Business and operations specialist with **8+ years of cross-functional delivery experience**, including **three years as the founding operations lead at Sling Mobility**, Sri Lanka's first battery-swap EV network, where I **mapped, designed, and documented every core operational workflow** in the business from rider journeys through to vendor and maintenance processes. Strong track record of **stakeholder engagement** across operations, engineering, vendors, and government bodies; structured documentation; and translating complex cross-functional processes into clear, executive-ready visuals. Career also spans enterprise SaaS delivery at Fortude (**Infor M3 ERP and Microsoft Dynamics 365**), banking-sector IT delivery at MillenniumIT, and a broader portfolio of digital programs across South Asia and the US. **Riyadh-based with a transferable Iqama. Available immediately.**

EXPERIENCE

Founding Operations & Process Lead

Sling Mobility (EV Battery-Swap Network) | Sri Lanka

June 2021 - October 2023

- Joined as **Employee #1** and led the design, documentation, and standardization of **every core operational workflow** across Sri Lanka's first battery-swap EV ecosystem **rider onboarding, battery lifecycle, swap station operations, vendor management, and field maintenance scheduling**.
- Mapped end-to-end as-is workflows** across the business, identified **process gaps and inefficiencies** across rider, vendor, and field operations touchpoints, and designed optimized to-be workflows aligned with operational and commercial targets.
- Conducted structured **stakeholder engagement and requirements elicitation** across **operations staff, engineering, vendors, government regulators, B2B fleet partners, and the rider community**, extracting accurate process details, validating workflow flows, and challenging inconsistencies.
- Translated complex cross-functional workflows into **structured visual documentation** suitable for executive, cross-functional, and operational audiences; **documentation was adopted company-wide as the operating standard**.
- Owned **end-to-end procurement and vendor process integration**: sourced and onboarded battery cabinet manufacturers, IoT hardware vendors, solar panel suppliers, and civil construction crews. **Issued RFQs, evaluated quotations, managed contracts, and integrated vendor handoff processes into the company's operational documentation**.
- Established **procurement, vendor management, and field operations playbooks (SOPs)** that remained the company standard as the network scaled to a **34-person team**.
- Delivered measurable operational outcomes through process redesign: **75% reduction in rider roadside incidents and a 148% increase in daily rides per rider** (from baseline 25 to steady-state 62), with **battery service life extended from 2 to 4 years** through validated charge-cycle optimization.
- Designed **system-to-hardware integration workflows** linking the digital command centre, swap station controllers, IoT modules, and vendor APIs, defining handoffs, exceptions, and dependencies across the full ecosystem.

Senior Product Manager / Delivery Lead

Fortude (Enterprise AI, Infor M3 ERP & MS D365) | Remote (Australia & US)

October 2024 - January 2026

- Owned end-to-end delivery of **2 AI-driven enterprise SaaS products on the Infor M3 ERP platform**, serving enterprise customers in **Australia and the United States**, with direct experience with **enterprise ERP workflow analysis, transferable to SAP environments**.
- Worked across **Microsoft Dynamics 365** for client relationship management, sales operations, and customer engagement workflows **directly applicable to Salesforce-equivalent enterprise CRM environments**.
- Analyzed client business processes across **Food & Beverage, Apparel, and LNG verticals** to identify ERP workflow gaps and priorities transformation opportunities by business logic complexity and strategic impact.
- Coordinated **cross-functional delivery teams of ~30** across engineering, QA, design, marketing, and sales, working across multiple time zones.
- Established **formal validation criteria and acceptance frameworks** for AI product output, **lifting early-adopter usage by 75%** through process-level improvements rather than feature additions.

Co-Founder & Delivery Lead

FieldR (Sports Technology SaaS Platform) | Colombo, Sri Lanka

June 2019 - May 2025

- Co-founded and led the delivery of a sports technology platform from concept through production, **validated at the Sri Lanka Cricket level**.
- Designed and documented end-to-end operational processes across scoring, match management, and payment workflows, including a **split-payment and escrow process** linking captains, players, and tournament organizers.

- Led **incident management during a critical live operations event**: coordinated immediate customer continuity, drove root-cause analysis, and shipped process and code-level remediation **within 48 hours**.

Project Manager

Motion Miracles (Fintech BNPL & Mobile Gaming) | Colombo, Sri Lanka

December 2020 - June 2021

- Designed and documented the **KYC onboarding workflow and instalment management process for a 0-to-1 BNPL product launch**, aligned with regulatory onboarding norms.
- Coordinated cross-functional delivery across product, engineering, design, and external publishing partners; **delivered 23 mobile game launches, generating SAR 200K in new revenue**.

Program Associate

GOOD LIFE X | Colombo, Sri Lanka (Remote)

August 2020 - December 2020

- Managed end-to-end delivery of an accelerator program supporting a cohort of **10 eco-focused Sri Lankan startups**; coordinated stakeholders across founders, mentors, and investor partners.
- **Implemented structured OKR tracking frameworks** to monitor cohort progress against program objectives and surface escalation points to senior leadership.
- Facilitated milestone review workshops and structured working sessions; documented program processes to standardize the cohort experience across portfolio companies.

Project Manager

Win Authority Innovative (SaaS & Web Applications) | Wyoming, USA (Remote)

July 2018 - August 2020

- **Delivered 8 SaaS and web application projects end-to-end** for US-based clients; managed full requirements, scope, and process documentation across the delivery lifecycle.
- Coordinated **a team of 4 developers** across multiple concurrent client engagements within timeline, budget, and scope.

Project Manager

MillenniumIT ESP (Enterprise IT - Banking Sector) | Colombo, Sri Lanka

July 2017 - July 2018

- Managed a **SAR 1.5M banking-sector IT project, the highest-budget** Intern-led project in the organization's history at that time.
- Coordinated **UAT, defect tracking, and stakeholder sign-off across a multi-country development team**. Reported weekly project status, risks, and timelines directly to client stakeholders and the banking sector VP.
