

THARIQ HAMAD

Project Manager | Infrastructure Delivery & Digital Transformation

thariqhamad6@gmail.com | +966 56 344 1876 | [LinkedIn](#) | [Portfolio](#) | Riyadh, KSA | Transferable Iqama

SUMMARY

Project Manager with **8+ years of end-to-end delivery experience** spanning physical infrastructure, digital transformation, and large multi-stakeholder programs. Led **Sri Lanka's first battery-swap EV infrastructure rollout** as **Employee #1**, owning **procurement, hardware vendor selection, solar power integration, construction crew management**, and station design across multiple sites. Career spans a **SAR 1.5M banking-sector IT project at MillenniumIT**, a SaaS delivery portfolio for US clients at Win Authority, BNPL program delivery at Motion Miracles, six years co-founding and running a sports technology platform (FieldR), and most recently end-to-end delivery of enterprise SaaS products at Fortude, serving customers in **Australia and the United States**. Equally comfortable on a construction site and in a digital program.

EXPERIENCE

Senior Product Manager

Fortude (Enterprise SaaS & Infor M3 ERP Platform) | Remote

October 2024 - January 2026

- Owned end-to-end delivery of **2 AI-driven enterprise SaaS products on the Infor M3 ERP platform**, serving customers across **Australia and the United States**.
- Restored release cadence on **2 previously stalled product lines within two quarters** by re-architecting program governance, risk escalation, and stakeholder reporting cycles.
- Coordinated a **cross-functional team of ~30** across engineering, QA, design, marketing, sales, and external partners, working across multiple time zones.
- Built a replicable GTM delivery playbook for new product launches; ran a webinar-led program that generated **SAR 7M qualified pipeline against SAR 3,750 in spend, with SAR 700K converted immediately**.

Product Lead

FieldR (Sports Technology Platform) | Remote

June 2019 - May 2025

- Co-founded** and led the delivery of a sports technology platform from concept through production deployment, validated at the **Sri Lanka Cricket level**.
- Owned end-to-end program delivery: **roadmap planning, vendor selection, AWS cloud infrastructure, sprint management**, release planning, and incident response.
- Delivered a platform supporting **40+ tournaments** and capturing **30+ live data points per match** across grassroots and top-tier domestic cricket.
- Managed multi-disciplinary delivery team across software engineering, design, scorers, and field operations.
- Led customer-first incident response during a critical live operations event - redirected customers to alternative systems while the engineering team **remediated the root cause within 48 hours**.
- Stakeholder management across a national sporting federation, tournament organizers, and the grassroots cricket community.

Product Manager

Sling Mobility (EV Battery-Swap Network - first of its kind in Sri Lanka) | Sri Lanka

June 2021 - October 2024

- Led full lifecycle delivery of **Sri Lanka's first battery-swap EV infrastructure program** as **Employee #1**, scaling the operation from concept to a **34-person team** across operations, engineering, customer support, and field maintenance.
- Managed end-to-end deployment of battery swap stations across multiple sites - including **site selection, design specification, procurement, civil works, commissioning**, and ongoing operations.
- Led the **design of the swap station infrastructure**, integrating physical layout, electrical systems, and IoT data architecture for live battery and ride telemetry.
- Owned end-to-end procurement for the program: sourced and negotiated with **battery cabinet manufacturers, IoT hardware vendors, solar panel suppliers** (for off-grid site power), and civil construction crews. **Issued RFQs, evaluated quotations, awarded contracts**, and managed vendor performance through delivery.
- Directed **construction crews across multiple deployment sites**, managing scope, schedule, quality control, and on-site safety throughout build-out.
- Coordinated multi-tier stakeholder engagement: **government regulators, fleet operators, institutional investors**, and the rider community - managing competing priorities through structured reporting and escalation.
- Delivered measurable operational outcomes: **75% reduction in rider roadside incidents** and a **148% increase in daily rides per rider** (from baseline 25 to steady-state 62).
- Established **procurement, vendor management, and field operations playbooks** adopted across the organization as the network scaled.

Project Manager

Motion Miracles (Fintech BNPL & Mobile Gaming) | Colombo, Sri Lanka

December 2020 - June 2021

- Delivered a **0-to-1 BNPL product launch** as lead PM: owned project plan, requirements, scope, **KYC workflow design**, and partner integration delivery.
- Managed parallel delivery of **23 hyper-casual mobile games** across multiple publishers, generating **SAR 200K in new revenue**.

Project Manager

Win Authority Innovative (SaaS & Web Applications) | Wyoming, USA (Remote)

July 2018 - August 2020

- Delivered **8 SaaS and web application projects** end-to-end for US-based clients, managing a **team of 4 developers** across timeline, budget, and scope.
- Owned full delivery lifecycle: requirements, scope definition, sprint planning, vendor coordination, release management, and UAT.
- Supported business development through client pitching, pricing strategy, and resource planning.

Project Manager)

MillenniumIT ESP (Enterprise IT - Banking Sector) | Colombo, Sri Lanka

July 2017 - July 2018

- Managed a **SAR 1.5M banking-sector IT project**, the **highest-budget intern-led project** in the organization's history at that time.
- Coordinated a **multi-country development team** through the full delivery cycle, including requirements, build, UAT, and release.
- Reported weekly project status, risks, and timelines directly to client stakeholders and the **banking sector VP**.
